

EAGLE MOUNTAIN RESIDENTIAL OPEN BURNING

The open burn policy was changed in 2013 to meet the revised standards of the State Department of Environmental Quality (DEQ). The DEQ no longer allows permits to be issued on an annual basis as had been done previously. Recent modifications to these rules changed the open burn periods and included a statewide requirement to complete an online application with the DEQ and to obtain a burn permit from the local fire authority. The completed DEQ application and the UFA issued burn permit are required prior to conducting any residential open burning.

Burn permits may be issued between March 30 and May 30 and between September 15 and October 30.

Only residents on (1) or more acres are eligible to apply for a residential burn permit.

The cost for the burn permit is \$25.

The DEQ online application can be found here:

<https://air.utah.gov/OpenBurning/form/index.php>

The \$25 permit fee is paid online at the UFA website:

https://secure.xpressbillpay.com/portal/payment_forms/?id=MTczNDQ%3D

Once the application has been processed and fee has been paid, the UFA will contact the applicant to arrange a site inspection. The fire department will inspect the area and what is to be burned. Following the site inspection, the fire crew will issue the burn permit.

- Be sure to plan ahead - the entire permitting process could take 3-5 days to complete.
- The burn permit is good for the duration of the seasonal burn window.
- Prior to burning, verify green burn conditions: <http://air.utah.gov/forecast.php?id=np>
- Prior to burning, contact Valley Dispatch @ (801) 374-2876 with name, address and time of burn.
