

UNIFIED FIRE AUTHORITY

MEMORANDUM

24-111

August 5, 2024

TO: All Personnel

FROM: Assistant Chief Dern

SUBJECT: Research & Development Committee Member Selection

I want to express my gratitude to all interested in filling the open Engineer position on the Research and Development Committee (R&D). We were thrilled to receive so many applications from highly qualified personnel.

For those interested and not selected, there may be additional opportunities in the near future to participate on this committee as a subject matter expert or in an ad hoc capacity.

After careful consideration, the R&D Chair, Captain Keith Bevan, Operations Chief Wade Russell, and I have selected Engineer Kelly Long.
