

UNIFIED FIRE AUTHORITY

MEMORANDUM

24-127

September 10, 2024

TO: All Personnel

FROM: Operations Chief Russell

SUBJECT: Structural Collapse Awareness Training in LMS

This memo is primarily intended for UFA personnel who plan to test in the upcoming Heavy Rescue Technician promotional process. In addition to the other required rescue certifications, this Structure Collapse Awareness training is requisite for eligibility to participate in the promotional process.

Candidates who already possess certification of training in Structure Collapse will meet the eligibility requirements for testing, however, it is recommended that all candidates review this material in LMS.

To access the course in LMS:

1. Go to the Self-Assign section and type the word “collapse” in the search bar
2. Select the “Structural Collapse Awareness” PowerPoint and review the material
3. Once complete, it is recommended you review the “My History” section within LMS and verify that a certificate of completion for this course is logged within your LMS file

*In keeping with the Heavy Rescue Program expectation that members maintain their personal records and certifications, it is recommended that in addition to the digital copy (LMS) of each course completion or certification, members keep a printed copy as well.
