

# UNIFIED FIRE AUTHORITY

## MEMORANDUM

24-167

November 26, 2024

TO: All Personnel

FROM: Battalion Chief Fossum

SUBJECT: RTF Equipment

---

It was identified during this last round of fit testing that both canisters and adapters for SCBA masks were handed out. This was done inadvertently. Each RTF kit has both an adapter and canister that are folded into the gas mask bag on the back of the carriers.

For anyone who received an adapter and canister, please return those to Logistics via the regular process for returns.

Sorry for any confusion and thank you for your assistance with this.

Please contact BC Fossum or Staff Captain Young with any questions.
