TO: All Personnel

FROM: Division Chief Prokopsis

SUBJECT: Recruit Camp 59 Fire Training Cadre Selection

On behalf of the Fire Training Division, I would again like to thank the 28 individuals who submitted resumes for the Fire Training Cadre program. All applicants are extremely qualified and deserving of an opportunity making this a difficult decision. Fire Training Division, with input from OC Russell, and AC Dern, weighed many factors in the cadre selection process. The following six members were chosen after much consideration. They will report to the Fire Training Division January 21, 2025 and return to Operations approximately May 15, 2025.

As mentioned in the recruitment memo, the Fire Training Division is dependent on members willingness to come out and share their talents and expertise as adjunct cadre instructors during peak training times. There are some very busy times ahead in 2025, with two full camps scheduled for February and August, and a lateral hire in June. Fire Training staff truly appreciates all the interest from those who signed up and have already come out to help with HOT trainings, High-Rise training, and Live Fire scenarios. I hope to have plenty more opportunities for all rostered Cadre members to help contribute through-out the coming year.

Fire Training will reopen our Cadre recruitment period next summer to update our roster in preparation for Camp 60, which will begin August 2025.
