First Tactical Sizing

As a reminder moving forward, UFA vendors are discontinuing the ordering of 5.11 products and will begin stocking First Tactical brand. Historically with the fit of 5.11 we became accustomed to “sizing down” slightly compared to other brands of clothing. Interestingly the Size Charts for both manufacturers list the exact same measurements for their brand. However, feedback from those who have purchased First Tactical noted that First Tactical products do run slightly smaller than the same size of 5.11. As an example, a Medium T-shirt in 5.11 fits comfortably, with First Tactical samples, the Medium still fits, but is definitely more snug, while a Large fits comfortably, but is roomier. Unfortunately, each of us will need to dial in the best size in First Tactical as inventory arrives with our in-town vendors.

The Uniform Committee is excited for these additional options for UFA uniforms and will continue to push out updates as we make improvements. A big thank you for your patience and to our uniform committee members for their commitment toward improvements.
