

UNIFIED FIRE AUTHORITY

MEMORANDUM

25-048

March 20, 2025

TO: All Personnel

FROM: Battalion Chief Fossum

SUBJECT: Testosterone Discussion

Following the marijuana presentation that Dr. Cheng provided UFA, there were requests made to the Health and Safety Committee for additional topics. Dr. Cheng has offered to provide webinars for various topics of concern for personnel.

The Health & Safety Committee solicited some feedback, and the topic of Testosterone use was identified as the next topic of interest. We have a Teams meeting for the Health & Safety Committee for May 22, 2025 from 0930-1030 at the link **Join the meeting now**. All crews are welcome to virtually attend. It will be roughly a 25-minute presentation with a 20-25 minute Q&A.

In anticipation of the presentation, we would like to solicit some questions for Dr. Cheng ahead of time. Email your questions to **BC Fossum** prior to May 12, 2025. BC Fossum will coordinate with Dr. Cheng on the questions provided.
