

UNIFIED FIRE AUTHORITY

MEMORANDUM

25-162

September 12, 2025

TO: All Personnel

FROM: Captain Simons

SUBJECT: Rover Bid Openings September 2025

Pursuant to the new Rover Bid policy #400-125, Rover bids are open once again for the next six months. The bids below in the table are open for bid. Rovers that have bids and do not desire a change do not need to bid. Recruits who have recently completed probation, and any promotions that have occurred since the last bid in March will need to take bids. Some positions have been assigned; if changes are desired, these may bid open positions as well. If you have a permanent station bid and want to give that up, you may bid a rover position. Cross-platoon bidding is not allowed for Rover bids. Any bids that go unfilled will be reopened in September 2025. For further questions, contact your Battalion Chief via the chain of command.

Reminder that even though some stations have three rover positions, a maximum of two rovers will be allowed to bid. These will be awarded by seniority, except Engineers will be given priority at tiller stations over seniority rules. Specialty stations will not have Rover positions; members who are interested in assignments at those stations need to contact Captain Chad Green to fill assignments. All rovers are encouraged to prioritize several rover positions to ensure one is received. If rovers are outbid and second or third choices are not selected, the staffing office and battalion chiefs will make assignments for you.

Rover Bids will close at 1200 hours on September 22nd, 2025.

If you do not take a rover bid, you will be assigned one.

Please review the video in LMS if you have questions on how to bid.

These are the open positions. Please also see the table below for current bids and for open bids.

Paramedic Rover Openings

STATION	PLATOON	POSITION
101	A	Paramedic
102	B/C	Paramedic

104	A/B/C	Paramedic
