Prioritize Deficient and Uninspected Premises

As crews work within their assigned zones, please prioritize businesses that:

- Have unresolved deficiencies requiring follow-up, and

Begin by reviewing the “**Deficiency List**” page in LIV. Apply the following filters to generate a list of premises with outstanding deficiencies:

- **AHJ Geofence Zone**
- **System Type:** *Ops Inspection*
- **Deficiency Status:** *Deficient*
- **Internal / External:** *Internal*

LIV Training & Resources

LIV training videos are available in LMS under the Fire Prevention section. These brief (approximately three-minute) videos provide quick refreshers on key program functions.
