

# UNIFIED FIRE AUTHORITY

## MEMORANDUM

26-025

February 11, 2026

TO: All Personnel

FROM: Division Chief Ayres

SUBJECT: Announcement: Selection of Zoll Zenix Cardiac Monitors

---

We are excited to announce that, following a comprehensive Request for Proposal (RFP) and evaluation process, UFA has officially signed a contract with Zoll to transition our existing X-Series cardiac monitors to the new Zoll Zenix platform.

Our goal was to ensure that UFA EMS providers have the most reliable, advanced technology available to provide top-tier patient care. The selection process included:

- **Rigorous RFP Analysis:** A deep dive into technical specifications, data integration, and long-term reliability.
- **Hands-on Field Evaluations:** We looked closely at the feedback provided by our field providers during open-house field demonstrations. Your input on usability and the devices as a whole was a deciding factor in moving forward with the Zenix.

**What Happens Next?** While the contract is signed, this transition will be a phased rollout. We are currently working with Zoll to finalize the implementation schedule.

**In the coming months, you will receive specific updates regarding:**

- Comprehensive hands-on training sessions.
- The official "go-live" schedule for each unit/station.
- New features and workflow integrations.

Thank you to everyone who participated in the evaluation process and especially to those EMS Providers on the RFP selection committee: Jake Erikson, Priscilla Nielsen, Robert Broome, Marc McDonald, Charles Brown & Conrad Jensen.

EMS Division is committed to supporting you with the best tools available as we move into this next chapter of clinical excellence.
